

“Best Wishes”

Some of our most popular plans feature our “signature” kitchen and this is one of the best with a wide open front viewing plan worth writing home about. A large selection of alternate windows is available to capture your choice of views and the living room is a perfect place for our three window tower dormer. You can convert the 3rd bedroom to a den with cut corner entry and utilize that closet space to create a master bedroom walk-in closet if you prefer. Or chose any of our end wall porch options found throughout this book.

MODEL 56717 1,493 Sq. Ft.

Our “Best Wishes” plan is shown in this artist’s print with our optional lap siding, recessed entry, shutters, a typical site-built garage and our 4 window radius end wall windows designed to coordinate with our 3 window radius tower dormer. We also offer a 4 window trapezoid end wall window alternative for this and similar plans. Or choose any of our covered porch options shown throughout this book.
